## **DETAILED ACTION**

### ***Response to Amendment***

1. Receipt is acknowledged of the Amendment filed June 10, 2004. The amendment includes amended claims 12, 21, 24, 30, 31, 33, 35, 39 and 40, a cancelled claim 34, and newly added claims 41-46.

### ***Allowable Subject Matter***

2. Claims 8-31, 33, and 35-46 are allowed.

The following is an examiner's statement of reasons for allowance: the cited prior arts of the record, Fujita et al. (US 4,774,399), (JP403083480A), and Bleier (US 6,382,508) taken alone or in combination of other references do not teach, disclose, or fairly suggest the claimed reading station and method comprising, among other things, a device receiver configured to receive the device and the receiver having a portion external to a housing, the portion being configured to enable a restraint to engage the opening in the device. The cited reference are also silent about the claimed features such as the restraint being a padlock, a cable tie, or a wire with a seal as recited in dependent claims. After further search and thorough examination of the present application and in view of the Applicant's arguments and amendments, claims 8-31, 33, and 35-46 are found to be in condition for allowance over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2876

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven S. Paik whose telephone number is 571-272-2404. The examiner can normally be reached on Mon - Fri (5:30am-2:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G. Lee can be reached on 571-272-2398. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
